Andri Óskarsson

Software Developer & Systems Engineer

🏠 Aalborg, Denmark

EDUCATION 🎓

Computer Engineering, BSc Aalborg University	2007 - 2012
Test Driven Development, Course J.B. Rainsberger / Sprettur ehf	2012 - 2012
Agile Design, Course J.B. Rainsberger / Sprettur ehf	2012 - 2012
Engineering Entrance, Course Aalborg University	2006 - 2007

ABOUT ℹ️

I come from Reykjavík, Iceland and am the oldest of 5 brothers. In 2006 I moved to Denmark to study. I now live near Aalborg, Denmark with my fiancée and son. In my off-time I like to bake pizza, take photos and go for walks.

I've been facinated by computers since age 8 and spend much of my free time, learning more about them.

SKILLS 🔨

Ordered by experience. Underline for preference.

Software Development

HTML/CSS, PHP, JavaScript, React, React Native, jQuery, Go, TypeScript, C#, Java, C, C++, TCL, Lua, Vue.js

System Operations

Linux, Docker, Kubernetes, Cisco, Asterisk, DevOps, Windows, Github, AWS, GCP, Terraform, DNS, SMTP, Jenkins, Gitlab, Mac

Data Management

MySQL, GraphQL, Postgres, Event Sourcing, MongoDB, Firestore, Memcache, Redis, SQLite, OpenAPI

Processes and methodologies

Agile, Kanban, Scrum, Lean, Test Driven Development

LANGUAGES 🅰️🈂️

Icelandic (native)
English (fluent)
Danish (fluent)

EXPERIENCE 💼

Lead Software Developer Venue POS A/S	2020 - Present

Assembled a small team and delivered a resiliant, offline capable point-of-sale system. Set up our cloud infrastructure and automated building, monitoring and deployment.

`Docker` `Event Sourcing` `GraphQL` `Kubernetes` `Postgres` `React` `React Native` `TypeScript`

Senior Software Developer Redia A/S	2019 - 2019

Worked on a web-based teaching platform and a mobile app to help librarians work more effectively. Pitched and developed an image (and video) scaling micro service.

`Docker` `Firebase` `Go` `Postgres` `React` `React Native` `TypeScript`

Tech Lead PARKPARK A/S	2017 - 2019

Pitched, developed and delivered a new user-focused app. Moved our infrastructure from a single server to full redundancy in Google Cloud. Ran in-house development, trained new employees, managed our infrastructure, coordinated with freelancers and did full-stack software development.

`Docker` `Go` `GraphQL` `HTML/CSS` `JavaScript` `Kubernetes` `Linux` `MySQL` `PHP` `React` `React Native`

Senior Developer UVData A/S	2015 - 2017

I managed releases, did frontend development and was a Scrum-Master on "Min Uddannelse", a large learning platform. I helped introduce React to the organisation, did internal training and helped with recruiting.

`DevOps` `HTML/CSS` `JavaScript` `jQuery` `React`

System Developer M1 A/S	2012 - 2015

Worked on an internal billing and CRM system as a part of the backend team. I pitched and delivered an automatic plan-upgrade system for usage-warnings that was generating revenue.

`Docker` `HTML/CSS` `JavaScript` `jQuery` `Linux` `MySQL` `PHP`

Software Developer Lyngsø Systems A/S	2013 - 2013

Software Developer / Intern Sprettur ehf	2011 - 2011

Student Developer Aalborg University	2009 - 2009

NETWORKING

Speaker & Co-Organizer Aalborg React Meetup
