Andri Óskarsson

Software Developer & Systems Engineer

🏠 Aalborg, Denmark

EDUCATION 🎓

Computer Engineering, BSc	2007 - 2012
Aalborg University	
Test Driven Development, Course	2012 - 2012
J.B. Rainsberger / Sprettur ehf	
Agile Design, Course	2012 - 2012
J.B. Rainsberger / Sprettur ehf	
Engineering Entrance, Course	2006 - 2007
Aalborg University	

ABOUT ℹ️

I come from Reykjavík, Iceland and am the oldest of 5 brothers. In 2006 I moved to Denmark to study. I now live near Aalborg, Denmark with my fiancée and son. In my off-time I like to bake pizza, take photos and go for walks.

I've been facinated by computers since age 8 and spend much of my free time, learning more about them.

SKILLS 🔨

Ordered by experience. Underline for preference.

Software Development

HTML/CSS, PHP, JavaScript, React, React Native, jQuery, TypeScript, Go, C#, Java, C, C++, TCL, Lua, Vue.js

System Operations

Linux, Docker, Kubernetes, Cisco, Asterisk, DevOps, Windows, Github, AWS, GCP, Terraform, DNS, SMTP, Jenkins, Gitlab, Mac

Data Management

MySQL, GraphQL, Postgres, Event Sourcing, MongoDB, Firestore, Memcache, Redis, SQLite, OpenAPI

Processes and methodologies

Agile, Kanban, Scrum, Lean, Test Driven Development

LANGUAGES 🅰️🈳

Icelandic (native)
English (fluent)
Danish (fluent)

EXPERIENCE 💼

Lead Software Developer	2020 - Present
Venue POS A/S	

Assembled a small team and delivered a resiliant, offline capable point-of-sale system. Set up our cloud infrastructure and automated building, monitoring and deployment.

`Docker` `Event Sourcing` `GraphQL` `Kubernetes` `Postgres` `React` `React Native` `TypeScript`

Senior Software Developer	2019 - 2019
Redia A/S	

Worked on a web-based teaching platform and a mobile app to help librarians work more effectively. Pitched and developed an image (and video) scaling micro service.

`Docker` `Firebase` `Go` `Postgres` `React` `React Native` `TypeScript`

Tech Lead	2017 - 2019
PARKPARK A/S	

Pitched, developed and delivered a new user-focused app. Moved our infrastructure from a single server to full redundancy in Google Cloud. Ran in-house development, trained new employees, managed our infrastructure, coordinated with freelancers and did full-stack software development.

`Docker` `Go` `GraphQL` `HTML/CSS` `JavaScript` `Kubernetes` `Linux` `MySQL` `PHP` `React` `React Native`

Senior Developer	2015 - 2017
UVData A/S	

I managed releases, did frontend development and was a Scrum-Master on "Min Uddannelse", a large learning platform. I helped introduce React to the organisation, did internal training and helped with recruiting.

`DevOps` `HTML/CSS` `JavaScript` `jQuery` `React`

System Developer	2012 - 2015
M1 A/S	

Worked on an internal billing and CRM system as a part of the backend team. I pitched and delivered an automatic plan-upgrade system for usage-warnings that was generating revenue.

`Docker` `HTML/CSS` `JavaScript` `jQuery` `Linux` `MySQL` `PHP`

Software Developer	2013 - 2013
Lyngsø Systems A/S	

Software Developer / Intern	2011 - 2011
Sprettur ehf	

Student Developer	2009 - 2009
Aalborg University
